NEW MANDATORY REQUIREMENT FOR DEA-REGISTERED PRACTITIONERS

Dear Colleagues,

Effective June 27, 2023, renewing DEA-registered practitioners must complete eight (8) hours of one-time training on the treatment and management of patients with opioid or substance use disorders. Additionally, per Nebraska Statute § 38-145(6), physicians (MD/DO) and physician assistants (PA) who prescribe controlled substances must complete at least three (3) hours of continuing education biennially regarding prescribing opioids. One-half hour of the three (3) hours of required continuing education shall cover Nebraska's Prescription Drug Monitoring System.

The InforMed **2024 Nebraska Medical Licensure Program** is designed to streamline the education requirements of the Nebraska Board of Medicine and Surgery, as well as earning MIPS and MOC points. Licensees who complete this program optimize their learning path while satisfying the DEA's new one-time MATE requirement and three (3) hour requirement on prescribing opioids.

InforMed has joined the Elite Learning family. Two of the nation's top healthcare education providers have joined forces with one goal in mind: to offer physicians a state-of-the-art learning experience that fulfills your state requirements and empowers you with the knowledge you need to provide the best patient care. Our websites have been updated in order to provide you with a personalized learner account, streamlined user experience, and much more. To complete the program online, visit **BOOK.CME.EDU**, enter the book code **NE24CME** in the box then click **GO**.

Thank you for choosing InforMed as your CME provider. We strive to create a high quality, streamlined program for our colleagues. Please contact us with any questions, concerns, or suggestions.

Best Regards,

The InforMed CME Team

Renewal Deadline:

10/1/2024

InforMed is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.
